

Industry Genomics Network Alliance

*Making personalised healthcare accessible to all Australians by
harnessing the collective skills and expertise of industry
to accelerate the adoption of genomics*

Membership Brochure

October 2026

Background

InGeNA Ltd is the peak industry body for organisations in the genomics sector, providing a unified voice to ensure industry is consulted, heard, and included in critical discussions. Our members bring unique insights and expertise across diagnostics, therapeutics, software, data, and analytics—ranging from global multinationals to innovative Australian startups.

Committed to collaboration, InGeNA works with the broader genomics ecosystem, including patient and consumer groups, to embed genomics into Australia's health system sustainably, achieving both clinical and efficiency benefits.

We define industry broadly, encompassing for-profit and not-for-profit entities involved in research, services, and solutions across predictive, preventive, diagnostic, therapeutic, and analytical applications, as well as software and clinical service delivery.

To achieve our purpose, InGeNA collaborates across the healthcare system—with government, consumers, healthcare providers, academia, and our Consumer Advisory Group. We focus on three strategic priorities to drive impact:

- **Influence:** Advocate for policy changes to advance genomics adoption and access.
- **Delivery:** Promote genomics to enable personalised healthcare.
- **Innovation:** Facilitate industry's role in shaping the future of healthcare.

Please read our [Strategic Plan here](#).

Membership and Partnering Options and Partnering Options

InGeNA offers a range of membership classes tailored to suit diverse needs:

- **Industry Membership:** Tiered options designed for businesses in the genomics sector.
- **Associate Membership:** Available for organisations unable to join as full members due to internal requirements.
- **Individual Membership:** Ideal for sole traders or individuals with an interest in genomics.
- **Partnering Model:** Suitable for government-owned or funded entities, industry/professional bodies, or consumer/patient groups seeking to collaborate.

This brochure outlines the benefits of our Industry Membership.

To join, please complete the [Application Form here](#). If you'd prefer a conversation to learn more, email us at info@ingena.org.au to arrange a call.

We provide incentive to Australian owned and headquartered entities. A broad and engaged Membership which receives value from InGeNA Membership is vital to the success of InGeNA's goals.

Membership Benefits

InGeNA is focused on growth to increase the influence and profile of our members and our industry. We offer a range of member only benefits.

Participation, Engagement and Influence

- **Influence & Advocacy:** Shape InGeNA's direction and contribute to high-impact submissions and consultations.
- **Representational voice for industry:** InGeNA plays a key role to represent industry and to participate in discussions at a federal and state government level.
- **Inclusion in Key Steering Groups and Initiatives:** Providing opportunities to shape our activities and advocacy.

Events and Connection Building

- **Exclusive Networking & Events:** Access regular member-only online and in-person meetings to connect and collaborate.
- **Strategic Connections:** InGeNA's network enables you to build meaningful industry relationships.

Visibility and Showcasing

- **Visibility & Recognition:** Be featured in our member directory, communications, and events to showcase your presence in the industry.
- **Showcasing your achievements:** we share the achievements and news about our members to amplify their message.

Information

- **Industry Insights:** Stay informed with regular updates from our CEO, Chair, and Board on policy priorities, industry news, and InGeNA activities. Helping you and your team to keep updated.
- **Keeping you informed:** Members receive regular updates on feedback from government and stakeholder discussions, and updates on government policy priorities.
- **Regular member meetings:** include presentations from members and key stakeholders from industry and government about the projects and priorities of interest and opportunities for industry involvement.

Governance

- **Governance Opportunities:** Nominate representatives to the Board, vote at meetings, and help shape InGeNA's future. This is open to members of InGeNA only.

What you can expect from InGeNA

- A highly consultative and collaborative group that represents a united industry voice focused on driving the progress of genomics adoption in Australia.
- Engagement with diverse perspectives including with our consumer advisory group to enable a patient centric approach.

Membership Rights and Responsibilities

As a valued Member, here's a quick summary of your rights and responsibilities:

Your Rights:

- Stay informed and engaged: Receive notices, attend, speak, and vote at general meetings—this includes voting for Elected Directors. *(Note: rights are on hold if fees are unpaid.)*
- Influence leadership: Nominate one individual for consideration as an Elected Director (as long as they meet ASIC and ACNC requirements and are not your nominated Representative).

Your Responsibilities:

- To appoint a Nominated Representative (an officer or senior executive) to exercise your rights on your behalf at our AGM or General Meetings.
- If InGeNA were to wind up, your contribution to any outstanding liabilities would be limited to just \$1.

For your reference our Constitution can be accessed here - [Link to Constitution](#).

By being part of InGeNA, you contribute to shaping the future of our industry!

Next Steps

We look forward to welcoming you to InGeNA so that you can connect with like-minded professionals working to advance genomics adoption in Australia.

To progress your application please complete our [Membership Application Form](#).

If you have any questions or need help with your application, just reach out to us at info@ingena.org.au —we're happy to assist.

Member Testimonials

"InGeNA enables TrakGene to collaborate, create a united voice, align viewpoints and position industry in the evolving conversation and initiatives for the Australian community, helping our organisations grow. Genomics is seen a core focus for the future of healthcare by the Australian Government, and InGeNA provides a centralised reference point to engage with industry stakeholders, enabling structured and succinct response to initiatives and understanding of future opportunities".

Andrew Grant - CEO, TrakGene

"One of the great things about InGeNA is the personal way we get to interact, especially when responding to policy submissions, which are so important in shaping government understanding of industry needs. InGeNA brings the whole industry together for meaningful discussions, like the policy roundtable they hosted. InGeNA is the only forum where we can come together and really think deeply about the challenging issues that matter most."

Dr Natalie Thorne - CSO, Genomical

"InGeNA membership helps us to keep up to date with initiatives and announcements about genomics from state & federal governments affecting the clinical and industry space, which is really useful in this highly dynamic area. It's important for us to be aware of what's going on, but it can be difficult for us to keep track of the number of announcements, so having InGeNA monitoring and sharing with members is really useful".

Mark Crowe - National Research Partnerships Manager, AGRF

"Being part of InGeNA provides J&J with numerous benefits such as amplifying the voice of the genomics industry in a consolidated and united manner to help shape policy and improve healthcare outcomes in Australia. We receive the latest industry news, hear from leading experts in various areas within genomics and collectively work on projects which will educate and inform government and the broader genomics healthcare industry".

Oliver Bonaccorso - Precision Medicine & Diagnostics Lead, Johnson & Johnson.

"InGeNA creates a collaborative environment where challenges across the full scope of precision medicine can be shared. This fosters a broader understanding of integration issues and aligns policy positions, making industry advocacy more efficient. When the precision medicine industry speaks with a unified voice, the Government listens; InGeNA is uniquely placed, through its broad membership, to make this happen".

Market Access Lead, Global Pharma member

“InGeNA is the only organisation convening leaders across medical, pathology and digital health to align priorities and deliver practical solutions for precision medicine implementation in Australia. Its strength lies in coordinated, strategic advocacy that drives the ecosystem change needed to reshape the health system. InGeNA provides the leadership and focus required to implement precision medicine in Australia”.

Leader, Global Pharma member
